Brequinar in Resistant − Up : GO Biological Process
G protein−coupled receptor signaling pathway
response to bacterium
immune effector process
adaptive immune response
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
leukocyte mediated immunity
lymphocyte mediated immunity
humoral immune response
defense response to bacterium
cell killing
regulation of lymphocyte mediated immunity
olefinic compound metabolic process
antimicrobial humoral response
cellular oxidant detoxification
positive regulation of T cell mediated immunity
T cell mediated cytotoxicity
hydrogen peroxide metabolic process
positive regulation of T cell mediated cytotoxicity
antigen processing and presentation of endogenous antigen
antigen processing and presentation of endogenous peptide antigen
