Brequinar in Sensitive − Up : GO Biological Process
G protein−coupled receptor signaling pathway
immune effector process
response to bacterium
cytokine−mediated signaling pathway
adaptive immune response
sensory perception
leukocyte mediated immunity
regulation of immune effector process
adaptive immune response based on somatic recombination of immune receptors built from immunoglobulin superfamily domains
lymphocyte mediated immunity
regulation of leukocyte mediated immunity
regulation of adaptive immune response
regulation of lymphocyte mediated immunity
detection of stimulus
humoral immune response
positive regulation of leukocyte mediated immunity
positive regulation of lymphocyte mediated immunity
T cell mediated immunity
regulation of T cell mediated immunity
positive regulation of T cell mediated immunity
