Interaction − Up : GO Biological Process
epithelial cell proliferation
humoral immune response
kidney development
renal system development
striated muscle tissue development
antimicrobial humoral response
cardiac muscle tissue development
BMP signaling pathway
response to BMP
cellular response to BMP stimulus
antimicrobial humoral immune response mediated by antimicrobial peptide
glomerulus development
regulation of BMP signaling pathway
mammary gland morphogenesis
regulation of cardiac muscle tissue growth
regulation of heart growth
outflow tract septum morphogenesis
glomerular epithelium development
glomerulus vasculature development
renal system vasculature development
