Resistant vs Sensitive − Down : GO Molecular Function
transmembrane signaling receptor activity
channel activity
passive transmembrane transporter activity
signaling receptor regulator activity
receptor ligand activity
signaling receptor activator activity
metal ion transmembrane transporter activity
monoatomic ion channel activity
gated channel activity
serine−type peptidase activity
serine hydrolase activity
serine−type endopeptidase activity
cytokine activity
voltage−gated monoatomic ion channel activity
voltage−gated channel activity
voltage−gated monoatomic cation channel activity
immune receptor activity
chemokine receptor binding
MHC class II protein complex binding
chemokine activity
